Know How No Game 2

This book series actually discusses the evolution of gaining the ultimate Know How of the Game of Poker. It talks about the evolution from a recreational player, live and online, to GTO equation and applying that intuitively to a point where you successfully profit financially to a point where you no longer need to play the Game of Poker at all. The evolution equation from start to finish is basically, gaining a **Know How** in order to profit to then come to the conclusion to no longer Play...

...This book explains why even the most successful Poker Players known in today's game, won't develop to the final stage of the Poker Game. The „ **No Game**“ Stage.

Learning the Rules (A2)
Playing the Game (A3)
Investing Stage (A4)
Time/Money Stage (A4)
Recreational Player Stage (A5)
Gaining **Know How** Stage (A2)
Position in Poker (A2)
Hand Ranges (A2)
Preflop Game (A2)
Betting Game (A2)
Postflop Game (A2)
Live Game/Online Game (A6)
HUD's (A7)
GTO Stage (A8)
Intuitive GTO Stage (A)
Profit Stage (A9)
No Game Stage (AT)

In the first volume (A), we went through a preview of the **Intuitive GTO Stage** which is one of the end stages of the ideal Poker Equation Evolution and will be more discussed in the volumes A8 and A9. From this point on we will continue through all stages in chronological order. Volume A2 will therefore be the actual start and at the start of all things you have to learn the Rules of poker before you can gain the knowledge (Know How).
