The Revolution
of the Money-system
for the Benefit of
all Humanity

„FUND for the
next Generation“

*This book is dedicated to my children,
Melina and Delano, and their future children.
Melina and Delano are representatives
of their generation, just as their future children
will be for the following generation.*

*May these generations gain a new consciousness
about the world, their mission in life and the purpose
and tasks of fellow human beings.*

*And may the children of the future be born
with the awareness that LOVE and the HEART
are the most important preconditions for humanity.*

My own Experiences

Prologue

Today we live in a world of great change. The most important and earth-shattering change will be experienced in relation to our ATTITUDE to the material.

Many people have placed their security in their materialism.

My heartfelt wish is to support these people in their interior lives, to free them from anxiety and depression, to show them their innate potential, and to provide a new approach towards the material. For it is not the material which represents security for people, but our own gifts, **talents and potential** that make up the strength of a person; and thus **his or her security**.

I want to show people how they can partake in the NEW, and how they can emerge stronger from this upheaval - both in the financial as well as in the emotional sphere.

This change means a **new beginning in our ATTITUDE** to many things.

VALUES are changing now. More and more people are withdrawing their attention and appreciation from the economic system because they see through its faults and injustices.

At the same time, we are beginning to realize how we really want to live, and what makes us happy.

We should open our HEARTS. And we should free our minds, so that we are capable of utterly new thoughts.

However, many people still think in terms of old models and structures.
