About the Authors

Damon Dean leads the client services group for Revcube, a cross-channel marketing optimization company based in San Francisco. His team is responsible for producing all client integrations on the Revcube platform, as well as the Revcube product integration with search, display, e-mail, and other channels. Damon came to Revcube after 12 years of managing, designing, and delivering consumer and enterprise Internet applications and software on the both the client and agency side. Previous to his time at Revcube, Damon spent five years as the Director of Product Development for the California HealthCare Foundation, a \$1 billion philanthropy. His team was responsible for the design and development all of CHCF's online properties, which included some 10 Web properties, as well as a whole suite of CRM, content management, and grant-making applications. CHCF is considered a leader among philanthropies in its use of innovative technology to promote social change in the health care market. Before joining CHCF, Damon was employee number six at 415, a San Francisco Web design and development agency. As the Solutions Director, Damon led 415's professional services efforts for Fortune 1000 firms on strategic marketing, product design, and development and business process engineering. Damon's successful track record includes work with Credit Suisse, Schwab, Robert Mondavi, BART, Hasbro, Levi's, and others. Damon also led the development of 415's technology assets. Before his time at 415, Damon spent the previous three years leading software development teams at AnyRiver Entertainment (an Electronic Arts Spinoff). He began his career in marketing for *PC World* magazine. Damon is also the author five books, all published by John Wiley & Sons.

Andy Cowitt is a Web Producer at the California HealthCare Foundation, where he engages in Web development in multiple capacities. He spent his formative Web years at the award-winning firm 415, Inc. While at 415, Andy worked on multimedia presentations and Web sites for Apple, Oracle, Macromedia, the San Francisco Symphony, KQED and others. In his spare time, Andy uses his computer to make music and videos. He lives in Oakland with illustrator Michael Wertz and their dog, Olive.

Jennifer Smith is the co-founder and Vice President of Aquent Graphics Institute (AGI). She has authored numerous books on Adobe's software products, including development of many of the Adobe Classroom in a Book titles. She regularly speaks at conferences and seminars, including the CRE8 Conference. Jennifer has worked in all aspects of graphic design and production, including as an art director of an advertising agency. Jennifer combines her practical experience and technical expertise as an educator. She has developed training programs for Adobe Systems and for all types of designers involved in creating print, Web, interactive, along with fashion and

apparel. Her teaching and writing style shows the clear direction of a practiced designer with in-depth knowledge of the Adobe Creative Suite applications. When she's not speaking or teaching, she can be found in suburban Boston, Massachusetts with her husband and children. You can learn about Jennifer's seminar and conference appearances at agittraining.com.

Christopher Smith is co-founder and President of Aquent Graphics Institute (AGI), the training and professional development division of Aquent that serves creative and marketing organizations. An Adobe Certified Expert for multiple Adobe products, he has worked as part of the Adobe Creative Team to develop many of the Adobe Classroom in a Book series and has authored numerous books on both InDesign and Acrobat. Christopher manages content for the CRE8 Conference for creative professionals and also the Adobe Acrobat & PDF Conference. He has also served as an elected member of the school board in his hometown in suburban Boston, Massachusetts, where he lives with his wife and children.

Dedication

Damon Dean: Chris, between the dog and cat, it's amazing that we're still a family. Nah, maybe not so much! Much love, Damon.

Andy Cowitt: For Michael, as always.

Jennifer and Christopher Smith: To our parents, Ed and Nancy Smith, along with Mary Kelly. In loving memory of Jennifer's father, Joseph Kelly, the best teacher of all. Also to our perfect children, Kelly, Alex, Grant, Elizabeth, and Edward.

Authors' Acknowledgments

Damon Dean: Every book requires the hard work of a large number of folks, the vast majority of which we never see. Revisions are even more challenging because as an author, you're constantly trying to remember what it was you wrote back in the first version of a product and whether it's still relevant. There is, however, a team of folks that are there to keep you on the ball, and for that I'm always grateful. Steve Hayes, our acquisition editor, continues to ask me and Andy to do these books, so a big thank you there! On this revision, Susan Christophersen was a tremendous shepherd of the book and my general lazy tendencies. Without her cheerful e-mails, we'd be late, or later, if you prefer! And a fine thank you to Ron Rockwell for all his vigilance in keeping us accurate. And to all the other production folks, thank you for making us all look good.

Andy Cowitt: Thanks to the Cowitts, Wertzes, and Saraccos, with special nods to Michael and to Damon. Also, props to Mike and all my other colleagues past and present at the California HealthCare Foundation.

Jennifer and Christopher Smith: Thanks to all our friends and colleagues at Adobe Systems for their support, encouragement, and faith in all our work, especially surrounding the Creative Suite 3 launch: Jane, Joe, Ron, Dave, Donna, Ali, Noha, Lynn, Adam, Jeffrey, Lori, Richard, and the many product team members who responded to our questions throughout the writing process.

A special thank you also to Fred Gerantabee, the master of all things Flash. Thanks for your significant contributions to this book.

Thank you also to Yvette Grimes for assistance in updating information.

To the highly professional instructional staff at Aquent Graphics Institute (AGI), we appreciate your great insight into the best ways to help others learn creative software applications.

Thanks to all at Wiley Publishing. This book involves a lot of detail and information, and it was up to Melody Lane, acquisitions editor for our three mini-books in this book, and her "tough love" to make sure that it got to the state it is now. Thanks to Kelly Ewing and technical editor Cathy Auclair for the great insight.

Grant, Elizabeth, and Edward — thanks for putting up with our long hours in front of the keyboard night after night.

Thanks to all of Kelly's friends for permission to use their photos.
